Projects

Researcher & Designer | <https://www.retellingdubliners.com>

Feb – Apr 2026

- Synthesized spatial and human behavior from on-site studies at the James Joyce Centre and MoLI, integrating qualitative insights from 3 user types to define digital engagement solutions.
- Authored comprehensive research reports and narrative copytext to bridge qualitative findings with a compelling digital vision.
- Executed frontend development and optimized UI components to refine user interaction flows and enhance accessibility.
- Collaborated across research, content, and development workflows to translate complex cultural narratives into engaging digital storytelling experiences.

User Research & Frontend Developer | <https://artsy-dublin-website.vercel.app/>

Feb – Apr 2026

- Conducted market and competitor research to identify usability gaps in Dublin's arts and culture event discovery platforms.
- Defined the product direction and designed user-focused experience flows to improve event accessibility and discovery for local creative communities.
- Designed a cohesive visual system, including color palettes and typography, ensuring consistency across all interface components.
- Worked in a cross-functional team aligning UI design, frontend development, and database structure.

Creative Website | UI/UX & frontend | <https://tianyisunn.github.io/website/>

Nov 2025

- Designed and developed a responsive portfolio website focused on interaction, visual storytelling, and user engagement.
- Implemented dynamic frontend features including Light/Dark mode persistence, API-driven real-time weather integration, and interactive filtering systems.
- Implemented scroll-triggered video keyframing and dynamic project filtering via JSON fetching.

Experience

Special Olympics Ireland | Media Volunteer

2026 Mar – Present

- Support digital communication initiatives through multimedia storytelling and audience-focused content creation.
- Collaborate with media mentors and volunteer teams to develop engaging social content promoting athlete stories and community inclusion.
- Contribute to visual communication strategies aimed at strengthening public engagement across digital platforms.

Sichuan Agricultural University | Head of Digital Media Operations

2022 - 2023

- Led a cross-functional team to establish unified visual and interaction standards, held group meeting twice a week, successfully delivered 400+ assets, growing the platform from 0 to 300,000+ peak views through content strategy, visual optimization, and platform management.
