Education

M.Sc. Interactive Digital Media | Trinity College Dublin

Sep 2025 - Aug 2026

Distinction in completed modules | Summer Project in progress

B.A. Product Design | Sichuan Agricultural University

Sep 2021 - Jun 2025

GPA: 87.9/100 | Top 10% | Honors Degree

Positive Psychology | University of Pennsylvania

Aug 2024

Skills

Product Design: User Research, Product Discovery, Information Architecture, User Journey Mapping, Wireframing, Prototyping, Usability Testing, Design Systems, WCAG 2.1 Accessibility

Development: React, TypeScript, JavaScript, HTML5, CSS3, REST APIs, JSON

Data & Collaboration: SQL, MySQL, Supabase, Database Design, Cross-functional Collaboration

Tools: Figma, Adobe Creative Suite, Webflow, ChatGPT, Midjourney, Adobe Firefly, ComfyUI, Tripo

Projects

MODU | UX Researcher & Frontend Developer

Jun 2026 - Present

- Led product discovery by synthesizing qualitative research across 6 user personas, translating insights into 40+ functional requirements for an adaptive furniture assembly experience.
- Designed end-to-end user journeys, information architecture, and interaction flows covering onboarding, personalized learning paths, assembly guidance, and progress tracking.
- Defined the application's data model by designing 15+ Supabase database tables supporting user profiles, task segmentation, learning progress, and assembly content.
- Planned iterative usability testing and refined interaction patterns to reduce cognitive load for neurodivergent and general users.

Retelling Dubliners | User Research & frontend | [Web Link](#)

Feb - Apr 2026

- Synthesized spatial and human behavior from on-site studies at the James Joyce Centre and MoLI, integrating qualitative insights from 3 user types to define digital engagement solutions.
- Authored comprehensive research reports and narrative copytext to bridge qualitative findings with a compelling digital vision.
- Identified and mitigated accessibility barriers through rigorous WCAG audits, re-engineering the interface to ensure perceivability for users with diverse visual and cognitive needs.

Artsy Dublin | User Research & Frontend Developer | [Web Link](#)

Feb - Apr 2026

- Conducted market and competitor research to identify usability gaps in Dublin's arts and culture event discovery platforms.
- Designed a cohesive visual system, including color palettes and typography, ensuring consistency across all interface components.
- Worked in a cross-functional team in UI design, frontend, and database structure.

Experience

Sichuan Agricultural University | Product Design Teaching Assistant

2023 - 2024

Sichuan Agricultural University | Head of Digital Media Operations

2022 - 2023
